

CCM Technical Maintenance Bulletin

Bulletin 20 - November 14, 2012

Reporting of Errors

Your help can improve this bulletin. If you find mistakes or you know of a way to improve the procedures, please let us know at mnr@ccmpool.com

All CCM repair vendors are required to comply with Safety & Security Regulations imposed by Terminal Operators where work is performed, in accordance with the License Agreement and Article 5.8 of the Form Agreement D.

Are you registered with DRS?

All truckers and depots are encouraged to register no later than June 1, 2010. For details visit us at www.chassis.com

FMCSA Kits

Summary

CCM continues to get feedback from the field suggesting that there are several different interpretations of what is, and is not, included in the FMCSA service.

Please note that all repair vendors supporting CCM operations (in all locations) are to adhere to the FMCSA procedure as published in the **CCM M&R Technical Bulletin No.5 - Periodic Maintenance / FMCSA Inspections**, dated 1 June 2010. All required services as well as a copy of the form to be used for each inspection are included in that bulletin.

Please note also that to simplify the input of FMCSA services to Chassis.com, we have created two specific part numbers that include all parts needed in the performance of the service. These parts codes are:

Part Name	Description	Unit Price
FMCSAKIT	Grease, glad-hand grommets, valve stem caps (8), reflectors (4), paint/rags, decal	\$10.94
FMCSAKITN	Grease, glad-hand, grommets, valve stem caps (8), reflectors (4), paint/rags	\$10.15

Decisions on which kit to use depend on whether or not the FMCSA decal is provided by the Pool or purchased directly from the repair vendor. You will note that the first kit includes a decal.

Questions regarding the FMCSA service procedure or the content and pricing of the kits should be directed to Dave Green, CCM Technical Services Manager, dgreen@ccmpool.com.
